Dear Steve,

As yet another project draws to a close I wanted to take this opportunity to thank you for all of your hard work in supplying CCTV for the Shire's Gateway Project.

While your installation talents were appreciated, your contributions to the design were truly above and beyond even our expectations.

With your help Midas currently will hit hand over deadline, your team alone installed the CCTV without problems. But perhaps even more importantly, your company and employee feedback was always positive and your engineers helpful, friendly and conducted themselves in a supportive manner. I am very excited about the work that I hope we will complete together in the future.

Thank you again for such a stellar job!

Warmest Wishes,

A handwritten signature in black ink, appearing to read "M Church".

Matthew Church  
Project Manager
