Dear Paul,

As you know we are well and truly ensconced into Riverview, gaining our BS5979 CAT II status within two weeks of occupying. We even won our first CCTV monitoring contract largely on the back of our secure environment and robust processes within the ARC. The access control and security system designed and installed by Alert Systems was instrumental in this success.

Simon and I wish to personally thank you, Mark and your installation team for the design and quality installation of the alarm and access control systems that came in on time and within budget.

The SSAIB audit inspector was particularly complimentary about your work comparing another alarm installation with one of our competitors that has actually held up their BS5979 Cat II accreditation.

If you need any further testimonials, we would have no hesitation in recommending your services to any third party.

Anne Carter
Response Centre and Technical Services Director
