Dear Richard

I am writing to say how pleased we are here at Deceuninck with the CCTV System your company installed for us. It has already been used on several occasions to source information regarding security issues, in-house issues etc.

The installation of the equipment was carried out swiftly and professionally by two competent and helpful engineers. In fact we didn't really notice they were here.

I would definitely recommend your system to other companies I deal with.

Once again thanks for everything you have done from start to completion.

Best regards

Lew Harvey
H & S/Training Coordinator
