Dear Richard

The security and safety of our country house hotel and our guests is extremely important to us.

I would like to express our appreciation to Alert Systems for your efficient, discreet professionalism and careful understanding of our specific requirements during our recent investment in your CCTV and security system at our country house hotel.

Within three days of installation, your quality CCTV monitoring system had identified an intruder within our car park area, and more recently another incident within the hotel, when the CCTV greatly assisted the police with their enquiries.

We would have no hesitation in recommending your company for its professionalism and quality range of products.

Yours sincerely
