Dear John

I would like to express my thanks for the superb security system you recently installed at our Newport site.

The External Dome Deterrent System is more effective than having a security guard on site and will save us a small fortune over the years to come. The range and detail from the Rapid Dome Camera is very impressive, playback of recorded video is simple and excellent quality and the policed Intruder Alarm gives us complete peace of mind.

The whole installation has been very professional and your engineers were quick and efficient - as they were when you sorted out our CCTV at Cardiff.

It has been a pleasure dealing with yourself and Alert and we will not hesitate to come to you again as we open more locations.

Many thanks once again.

Rhys Boore
