Dear Ian

Following your recent visit, I would like to take this opportunity to thank you and all the staff at Alert Systems for your professional service.

In particular, I would like to thank Jim for all the time he spent on site in ensuring that the new system was set up exactly how we wanted it and that we fully understood how it operated.

The installation of our 4 new cameras and digital CCTV recording has already proved invaluable. No more tapes to keep changing and the images are clear and sharp.

As our needs change, we look forward to working with Alert Systems in the future and wish the company continuing success.

Yours sincerely

Steve Morgan
