12<sup>th</sup> February 2007.

Dear Richard,

I just thought I would drop you a line to say 'Thanks' for such a smooth implementation of a new vehicle recognition system at our Butterwick site and CCTV at both our Kirton and Butterwick sites.

It is such a pleasure to actually work with a company who deliver on time and to the standard that you expect. So often now days you are sold a system and expectations are not met due to poor equipment and installation.

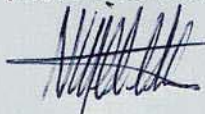

Can I also say a big thank you to your staff especially the people who have installed the vehicle recognition system. The standard of work has been exceptional and everything I have asked them to do they have achieved with no complaints and at a speed that has been first class. I believe these gentlemen are called Mark, Dean and Gavin.

Also the other good news is that I have calculated our savings and I believe that we will be saving between £45,000 and £65,000 per annum.

So what we anticipated would be a secure system has also delivered cost efficiencies that only makes me even happier!

Please pass on my thanks to all concerned.

Yours Faithfully,

Nigel Clare.

Joint Managing Director.
