

Mc Fen Haulage Limited

79 Stanley Road
Stratford
London
E15 2LH

Date 26th September 2008

Alert Systems have recently completed the installation of an External Deterrent System at our yard in Stratford E15. The installation team were always helpful and co operative, so avoiding any noticeable disruption to our daily work routines. Despite some problems they remained calm, were always polite and ready to answer any questions we had about their work. Work commenced on time and rolled smoothly to a conclusion at which time our staff were shown how it all worked, all questions with regard to the system and its controls were answered.

This was all very impressive as are the standard of picture we receive from the cameras. The really impressive thing about this whole installation has been the excellent service from both the engineers and the back up team of IT and office staff in dealing with initial teething problems, promptly, effectively, thus ensuring the security of our yard has remained a top priority to all concerned at all times.

Signed

Mr B Hawley
Transport Manager
