Dear Steve

We would like to take this opportunity to thank you for all your help in our venture. As you are well aware we had a very big project in turning the club into a soft play.

We found your advice on what to use extremely helpful, we were very unsure of what we needed and what to do but your advice made the decisions very easy! Whenever we were unsure about something or needed something changed all we needed to do was give you a ring and within a few hours you were here! Whatever stage of our project you were always ready and able to help. We really appreciate it and will give you the highest recommendations to anybody who asks us.

Thankyou very much
