Dear James

I would like to thank you and your colleagues for the excellent job installing the CCTV System and External Derrent System to protect and monitor our premises.

Firstly, I must say that your team were a pleasure to have on site. We were constantly kept informed of the detail to the installation and they worked in a professional manner.

Richard Aldridge we are particulary impressed with. An excellent ambassidor for Alertsytems, his expertise and communication skills are a huge asset adding value to a very benefical complete package of intruder alarm, access control and a CCTV system that exceeds our expectations

We only have the highest regard for your installation team and the standard of workmanship, we have no hesitation to recommend your company.

Yours sincerely

Bryan Barry  
Warehouse Manager
