Dear Reg

Re; Site security systems

Just a short note of thanks for all your assistance with the installation of Alert security systems at our depots at both Poole and Rushden.

Having used Alert for our external security requirements for over 10 years now I would certainly have no hesitation in recommending your system to other similar Companies and indeed have already done so.

The latest version with the external domes, verbal warning and siren complete with fully digital CCTV recording acts as a real deterrent to any would-be intruders.

The complete sales, installation and back-up service is a credit to your organisation and I wish you every success in the future.

Yours sincerely

Evan Sparrowhawk
Managing Director
